

Bob King Ministries

May 2016

Casa Jovenes Del Rey boys pose for Uncle Bobby. Left to right: Iván, Ricardo, a visitor, and José Luis.

Priscy doesn't seem to like the clown very much!

Our young people join with other church groups for a Christian March in Piedras Negras.

Remember Pedro and Faby's nutrition class in March? They had three in their class. Look how it has grown! Praise the Lord!

My Dear Partner:

God bless you!

On June 2, our children's homes will celebrate thirty years—1986 to 2016! That is difficult for me to comprehend! I have seen many changes during that time such as import embargos, building codes, and disciplinary measures concerning the children, to list a few. But the most exciting thing is that I have watched an entire generation grow up! If you can imagine it, most of the children who entered our homes in those early years now have grown children of their own! Sigh! Where has the time gone?

The good news is that each one who entered our doors during the past thirty years was told the sweet story of Jesus and, to our great joy most of these precious ones accepted Him into their hearts. As you have read in previous letters, these now grown-up "kids" are taking their own families to church and teaching them about Jesus—and that blesses me! That's what it's all about. Thank you for your faithfulness in helping us spread the Gospel of Jesus Christ!

The door for ministry is **wide open!** We do not dare slow down now. Not only is your continued giving important, it is even more vital since greater opportunities represent greater needs. Thank you for being willing to help us meet the challenges before us.

I have personalized Isaiah 29:22-23 (AMP) and am seeing miracles happen. You may want to pray it over your family, too: ***"I pray I will not be ashamed or become pale with fear and disappointment because of my children's degeneracy, but when I see my children walking in the ways of piety and virtue, I will recognize your hand in the midst and revere your name!"*** Thank you and God bless you!

Dr. Romo MD NP instructs an excited class of medical missionaries. The trainees are finding multiple opportunities to minister the Gospel as well as offer dietary help to diabetic sufferers and other like ailments to the people in their communities.

School children in the Jiménez/Dolores community enjoy planting their own garden. Fabiola teaches in public school.

Pedro (right) instructs his students in the skills of gardening and nutrition.
