

# Bob King Ministries

November 2016

Congratulations to the happy Bride, our own Rosita, and her handsome Groom, Adolfo.

Dr. Albert Romo (right, in red) presides over another session with the medical team.

Fabiola reports that eight people found Jesus in this health class.

Fabiola, who obtained a marketing degree, is designing the teams' charts and handouts. Thank you, Partners, for paying for Fabiola's education. She is one grateful lady!

Dear Partner:

**Happy Thanksgiving! Thank God** for our Christian heritage. God Bless America!

**Our Gospel ministry through medicine** is advancing methodically. It has taken about a year and one quarter for the class to become confident and competent to begin using their training to extend our evangelistic ministry past street witnessing. We have always been able to pray for the sick, but we can now offer competent, constructive instruction in diet and self care. As our knowledge and skills grow, we will treat patients who come to us for help. We have witnessed salvations and life changes that would not have happened without our having the ability to preach and demonstrate repentance through the ministry of medicine.

These missionary teams are being invited into homes and churches. As people experience a turnaround in their health due to simple, but important adjustments in their lives, they are more open to understanding that repentance from sin is necessary for their souls.

**Thank you for your prayers for Priscy!** She is recovering nicely. Thank you, also, for your financial help with her hospital bill and medications. God bless you! The DIF (Mexican Child Protective Services) told Felipe and Angelica that soon they would either place Priscy in another home or place her up for adoption to which Angelica responded:

**No way are you taking our baby from us!** So, the happy proceedings for the Recio's to legally adopt Priscy have begun.

**Norma**, house parent at Casa Jovenes Del Rey, **underwent surgery this month.** She required several blood transfusions prior to surgery and, although very weak, she is slowly gaining her strength back. With the knowledge she has learned from her time in health classes, she has learned how to co-operate with her body so that health and healing will return more quickly. She is thankful that the boys are a great help with the cooking and other chores.

**Christmas is just around the corner!** In addition to our children's homes, gift-giving responsibilities have greatly increased because of our added evangelism efforts in churches and street ministry. Your gifts open hearts to the Gospel and exemplify the love of Jesus. **Thank you and be greatly blessed as you stand with us in prayer and giving! Happy Thanksgiving!**

The lady on the left, a diabetic, sought help from our Medical team. She gave her heart to Jesus during the team's visit.

Sweet Priscy (left) with Angelica's granddaughter Camilla.

This child was blessed by Evangelist Adolfo and Rosita's street ministry.
